Maybe they think it doesn't matter. Maybe they're worried about cost. Regardless, your personal insurers are keeping exposures from you that you need to know for coverage to do its job. In the first two sections of the course, we'll discuss the Personal Auto Policy (PAP) and several common coverage issues that, if unknown to the agent or insured, could cause financial ruin. Issues and solutions discussed include non-owned vehicles, kid drivers, separated spouses, unique ownership, business use, ride-sharing, vehicle-sharing and trailers. In part three, we'll discuss coverage concerns for self-employed individuals who may rely on their Homeowner's policy to cover "business" claims.
